To Whom It May Concern,

InterSchola has been one of our top vendors for the past year and a half. Accordingly, I have no hesitation in recommending them as a company with which to do business. Their practice has always been to place the districts needs and concerns at the forefront. InterSchola has worked cooperatively with our staff to achieve timely, regular, and successful surplus auctions. They are the most full-service auction company in the market today. Prior to using InterSchola's services, we held bi-annual surplus sales and the expenditures involved for the money that was made, was cost prohibitive for us. InterSchola has not only eliminated the costs associated with the arranging and manning of our own sales, they've managed to move many items, that in the past we could not.

Bruce Scott makes scheduled and regular visits to our site and works continuously to keep the auction process flowing – from creating inventory lists, taking digital photos and detailed notes on each asset, to creating public auction listings. Then InterSchola manages all customer queries, receives payment and ships or delivers the item(s). Proceeds from on-line auctions have netted the district approximately \$50,000 to date – a figure that we are extremely pleased with.

Based on our experience, any school district or public agency would benefit by working with InterSchola on asset management the sale of surplus property. I recommend them with enthusiasm and welcome a phone call to discuss any questions you might have.

Respectfully,

Nancy Sirko

Nancy Sirko
